

ARTEMIS

powerful natural remedies

Dear valued ARTEMIS customer,

Following on from my newsletter last month about the steep growth in organics, I have had many people inquire as to why Organic food and remedies are better for you.

Organic food is produced from farming systems that avoid the use of synthetic, man-made fertilisers, pesticides, growth regulators and livestock feed additives. Instead, organic farming relies on biological pest control, crop rotation, animal manure fertilisation and hand weeding.

Why is this better?

- ◆ Better antioxidant levels in the plants
- ◆ Free from harmful pesticides
- ◆ Doesn't pollute the earth
- ◆ Stores 28% more carbon in the soil
- ◆ Tastes better!

We are what we eat, so ARTEMIS is committed to being organic as it provides the best remedies for our natural, safe products and is best for our environment too!

Wishing you good health & happiness.

Sandra Clair, Managing Director
M.A., Post. Grad. Dip. Health Science.

shhhh...newbies are coming...

Mid-July sees some exciting new products being added to the ARTEMIS range.

- Chest Relief
- Virogone

These practitioner strength oral liquids provide an excellent alternative to conventional cough syrups.

You may have read that many conventional cough syrups have been pulled off the shelves in the UK and NZ has followed suit. We decided following this news that people need a viable, safe alternative that works.

The ARTEMIS chest relief is an excellent broad spectrum cough syrup that addresses dry, wet & whooping coughs.

The ARTEMIS Virogone is an anti-viral broad spectrum formula which helps to prevent viral infections and increase immune resistance.

Both are:

- hypo-allergenic
- contain no sugar or sugar substitute
- contain no colourings, flavourings or preservatives

Plus they work! Suitable for the whole family, watch out for their official launch later this month.
